COMMENTS: 06-25-93 Emilcott Lead. 03-11-94 Told Sectr about us. Kinda LM
for Larry. 03-15-94 Send info to Larry. He heads up environmental dept.
They deal w/ UST, and site assessments. He knows said that his firms does
work for Dad. 07-12-94 They may have a project coming up. Some additional
phase II might need to be done. Lawyer had client do some drilling.

Additional comments: 08-03-94 Nothing yet, maybe call in early
Sept. 09-07-94 Larry estimates that they have 2,000-3,000 yards of a
sludge pond. He is hoping it is solid waste problem and not
hazardous waste. Call in 6 wks after they get their analytical.
10-21-94 Call around Thanksgiving. 11-22-94 Met w/ Gene and Larry on
Canton Drop Forge project. 03-17-95 Met w/ Larry and Keith
Houseknecht at Canton Drop Forge. 04-10-95 Wait a couple of weeks
for excavator to come on site. 04-21-95 Larry was at pre-bid
meeting. 05-03-95 We were the only bidders. 06-21-95 Saw Larry
briefly in office.

 DATE UPDATED: 07-19-95 DATE FIRST CONTACTED: 11-22-94 CALLBACK: 07-25-95
 COMMENTS: 11-22-94 Met w/ Gene and Larry today on Canton Drop Forge project. We discussed excavating the pond, adding sand and treating it above ground. Need to stay in touch w/ Gene. 07-10-95 Gene said that they could probably sample this week. 07-19-95 Gene did some sampling.

Additional comments: SunPro was more money & landfilling was \$28/ton for Trans & disposal, and \$17/ton for Excavation. (5,000 tons = 3,000 yards) Works out to be \$75/yards. Let's pray that they will choose us. 03-27-95 They want quot for 9,000 yards on C. Drop Forge project. Lambda other quot. 03-29-95 They definitely want to dredge ponds. 04-14-95 Legal info will be sent. 05-04-95 Gene said everything was looking good for us. He had some questions about sampling. 06-01-95 Received contract addendum and sent response to last letter. 06-14-95 Gene had me look over Beaver's end of contract. 06-21-95 Got contract from Lawyer. 07-07-95 LM.

January 6, 1995

Mr. Gene Hill
Hammontree & Associates, LTD.
5233 Stoneham Rd.
North Canton, Ohio 44720

Dear Gene,

I have put together two different proposals for Canton Drop Forge project. In the first proposal, The Critter Company will provide microbes, labor, and earthmoving equipment throughout the entire project. Sampling has been left up to Hammontree & Associates for both proposals. The second proposal has The Critter Company providing only the inoculations and follow-up visits. All earthmoving equipment and labor will be the responsibility of Hammontree & Associates. The Critter Company will however, advise your excavating crew how the soils should be placed. The following is a chart of how often various activities should be conducted.

	<u>Activity</u>	<u>Minimum</u>	<u>Average</u>	<u>Maximum</u>
1.	Sampling	3 times	5-6	10
2.	*Number of Samples	?	?	?
3.	**Turning Soil	4 times	8-10	20
4.	***Watering	4 times	12-15	30

**The Critter Company recommends that at least 4-5 samples per sampling period be submitted to a lab for analysis. However, more samples may be needed to comply with regulatory requirements and/or request from the client.*

***Soils should be turned every other week during the months of May-October. This will be a full 8 hour day for an equipment operator.*

****Watering will depend on weather during spring and summer months. We recommend that watering be done at the least when soil is tilled or turned over.*

Sincerely,

Scott Klingensmith
